Education

Full Stack Web Development Bootcamp   **September 2022**
University of Connecticut   **Danbury, CT**
- Studied CSS,HTML and Javascript with a focus on ES6 features.
- Utilized the MERN stack (MongoDB, Express, React and Node.js) to build team projects.
- Expanded my knowledge of MySQL and made use of the Sequelize.js ORM
- Additional topics covered were Git, PWAs, REST APIs, GraphQL and TDD

Previous Experience

Invoice Analyst and Systems Lead   **2017-2022**
Starr Companies   **New York, NY**

- Oversaw a RDBMS responsible for over one billion dollars in billing each year.
- Studied VBA scripting language to automate excel tasks.
- Facilitated contracted developers work on new features and provided User Acceptance Testing
- Designed file management schema for sharing files between teams.

Epic Software   *2015-2016*
Accounting Assistant   **Madison, WI**

- Prepared billing milestones, invoicing and support for seven major US hospitals.
- Oversaw a redesign for executing billing for custom APIs created for clients.
- Utilized a SQL database to calculate billable hours for all 200+ hospitals.
- Created new logic to filter for mislabeled billable time, increasing accuracy in charges.

Agrace Hospice Care   *2012-2015*
Accounting Assistant   **Madison, WI**

- Regulated an active inventory of over 900 medical supplies.
- Engineered and operated a barcoding system for counting inventory, reducing waste.
- Converted supply rooms to a kanban system to minimize out of stock time for all supplies
- Introduced XML templates to quicken adding new items into inventory.
